International Aviation Summer School–NAA 2026

Advancing the Next Generation of Aviation Professionals

The National Aviation Academy proudly presents the **International Aviation Summer School – NAA 2026**, an intensive two-week academic program designed to combine global aviation standards with practical technical training.

This 60-hour (5 ECTS) English-taught program provides a multidisciplinary learning experience covering aviation governance, operational systems, aerospace engineering, and emerging UAV technologies within an international academic environment.

Participants will develop

- Operational awareness aligned with ICAO principles
- Practical simulation and decision-making competence
- Technical understanding of aircraft systems and UAV technologies
- Analytical skills through laboratory experimentation
- Industry insight through institutional exposure

Academic Framework – 60 Contact Hours

Aviation Systems & Regulation – Global aviation governance, ICAO framework, safety management systems, air navigation and regulatory compliance.

Simulation & Operational Training – Full-flight simulator missions, ATC communication exercises, flight planning, Crew Resource Management (CRM) and structured debriefings.

UAV & Emerging Technologies – Drone assembly, flight control systems, mission planning, outdoor testing and flight data interpretation.

Aerospace Engineering Laboratories – Wind tunnel experiments, materials testing, structural analysis and composite inspection techniques.

Industry & Space Technologies – Airport Operations Control Center visit, airline technical maintenance and MRO processes, satellite operations briefing at Azercosmos.

A Comprehensive Participation Package

- ✓ 60 Contact Hours (5 ECTS)
- ✓ Laboratory & Simulator Access
- ✓ Industry and Institutional Visits
- ✓ Accommodation for the Full Program Period
- ✓ Full Board (Two Meals Per Day)
- ✓ Final Capstone Project with Academic Jury
- ✓ Official Certificate of Completion

Program Details

- Language: English
- Location: Baku, Azerbaijan
- Maximum Capacity: 20 Participants
- Participation Fee: 500 USD

📍 Baku, Azerbaijan

📅 Application Deadline: 30 April 2026

📅 29 June – 10 July 2026

🎓 Credits: 5 ECTS
