As podcast host **Dr. Ashraf Mahate FRSA** speaks with more and more university leaders from across the Middle East region, we can see some themes emerging. They are thinking about how to address shifting student expectations, the undeniable impact of AI, and the need for universities to evolve into interconnected ecosystems that prepare students for an unpredictable world. These conversations reveal a shared commitment to fostering resilient, flexible, and purposeful graduates ready to make a positive societal impact. Read more in this summary of the interviews so far.
