## Meeting with McGraw Hill

Today, I had the pleasure of meeting with **Sean Glynn** and **Kelly Rollins, M.Ed.** from **McGraw Hill**, alongside my colleagues Dr. **Hamad Odhabi** and **Professor Barry O'Mahony**. During our discussion, we explored exciting opportunities for collaboration that could enhance our mutual goals and drive innovation in our fields.

Founded in 1888, McGraw Hill has a rich history, beginning when James H. McGraw, one of its co-founders, purchased the American Journal of Railway Appliances. This legacy of excellence continues to shape the educational landscape.
