As the Work Experience Pilot Program ends, we celebrate the journey of 27 Emirati students who stepped into the private sector to gain invaluable hands-on experience. From supporting key departments to engaging with real-world challenges, these future leaders are now better equipped with the practical skills and insights needed to thrive in today's workforce. We extend our sincere thanks and appreciation to the participants for their commitment and inspiring efforts, and to the organizers and partners for their vital role in making this program a success and creating a meaningful impact in the journey of our youth.
