Before going on vacation mark your calendar with the IREG 2025 Conference, 9-11 December. We will meet in Abu Dhabi, a special place, a center of Arab business, culture and education, placed between the sea and the desert.

After over 20 years of IREG, we are off to a unique experience and a new opening. Thanks to the brilliant initiative of Prof. Ghassan Aoud, Chancellor of Abu Dhabi University, IREG Observatory and ADU by joining forces and in a partnership, are staging a mega conference that combines a drive to sustainability (ICASF 2025) with lessons on university's quality that rankings provide (IREG 2025).

In the field of university rankings, we are witnessing significant changes. The IREG 2025 conference will provide a perfect forum to confront the role of rankings with changes taking place in higher education and in the world in general.

The eight plenary panels packed with top international HE experts and authors of the established rankings will cover issues that will bear on the universities, and on society.

The full conference program will be available in September. Register now at: <https://lnkd.in/dnqVFtSg>

See you in Abu Dhabi!
