A Memorable Interview Experience with Penresa

I was truly delighted to be interviewed by my esteemed colleagues from **PENRESA** who are conducting in-depth research for a special report on Abu Dhabi, set to be published in **USA TODAY**. This one-off report is poised to highlight the emirate's remarkable economic transformation, its spirit of innovation, and its position as a global leader. The interview was skillfully conducted by **Julia Flammann** and Giovana Arriel, whose professionalism made the experience even more enjoyable. As a thoughtful gesture, I received a thank you card from them, which I truly appreciated.
