Memorandum of Understanding (MOU) with Reem Hospital

Today, I had the distinct honor of signing a Memorandum of Understanding (MOU) on behalf of **Abu Dhabi University** (ADU) with **Reem Hospital**. This significant agreement was co-signed by Mr. **Zaid Al Siksek**, Chairman of Reem Hospital, and witnessed by Mr. **Clancey Po**, Chief Executive Officer of the hospital.

Also present at the signing ceremony were the Dean of the College of Health Sciences at ADU, Dr **Sofyan Maghaydah**, along with other esteemed colleagues from our College and the marketing department. This collaborative effort aims to strengthen the partnership between our institutions, fostering a shared commitment to advancing healthcare education and services.

The MOU outlines our joint initiatives, which will include collaborative research projects, internships for students, educational programs, and professional development opportunities for students and faculty alike. By working together, we aspire to enhance the quality of health sciences education and promote innovative practices that will benefit the community at large.

The synergy between ADU and Reem Hospital represents a strategic move towards bridging academia and healthcare. It is our belief that this partnership will not only provide valuable real-world experiences for our students but will also contribute to the ongoing advancement of healthcare practices and education in the region. We are excited about the promising future of this collaboration and the positive impact it will have on our respective institutions and the broader community.
