The 2nd Edition of the International Conference on Environmental Design, Material Science, and Engineering Technologies (EDMSET-2025)

I am honored to announce the 2nd Edition of the International Conference on Environmental Design, Material Science, and Engineering Technologies (EDMSET-2025) organized by the College of Engineering, taking place from April 22 to 24, 2025. This significant event will be hosted across three prestigious venues in Dubai: the iconic **Museum of the Future**, Abu Dhabi University's Dubai Campus, and the Marangoni Institute.

EDMSET-2025 is a collaborative effort between Abu Dhabi University, the Marangoni Institute, and **IEREK**. This hybrid-format conference will bring together 350 participants and feature 242 research papers from 56 countries, covering a broad spectrum of topics including design, architecture, mechanical engineering, materials science, computation, automation, aerospace engineering, and environmental resilience. We are privileged to welcome esteemed VIP guests:

HE **Hala Badri**, Director General of the **Dubai Culture & Arts Authority**.

HE **Lorenzo Fanara**, Ambassador of Italy to the UAE

Their participation underscores the importance of international collaboration in advancing sustainable technologies and innovation.

The conference will also feature a number of prestigious keynote speakers, whose insights and expertise will contribute significantly to the discourse on environmental design and engineering technologies.

I extend my heartfelt congratulations to Dr. **Hamdi Mustafa Sheibani**, Dean of the College of Engineering at Abu Dhabi University, for his visionary leadership in orchestrating this remarkable conference. My sincere appreciation also goes to the conference chairs, Dr. **Mohamed Elkaftangui** and Prof. **Paolo Caratelli**, as well as to Dr. **Mourad Amer**, and the entire IEREK team for their unwavering commitment and collaboration.

For more details on the conference program and registration, please visit:
