Exciting News: Proud of Our Students, Alumni, and Faculty

It is with great pride and excitement that we announce the outstanding achievement of Haya Alassaly, a 4th-year Biomedical Sciences student, along with Biomedical Sciences alumni Dana C. and Aala Ahmed, who have secured 1st place in the prestigious Academic Healthcare Innovation Challenge 2025, organized by the Department of Health.

Their groundbreaking project marks a significant breakthrough in the field of biomedical science, offering a promising solution aimed at slowing the progression of dementia and enhancing cognitive function—a testament to the power of innovation in transforming lives.

This remarkable milestone would not have been possible without the unwavering support and exceptional mentorship of Dr. Nermin Eissa, Chair of the Biomedical Sciences Department. Her dedication to empowering students through knowledge, critical thinking, and hands-on research has played a pivotal role in guiding them toward this success.

At Abu Dhabi University, we are deeply committed to fostering a culture of innovation, academic excellence, and real-world impact. This victory reflects our mission to equip students and faculty alike with the tools and opportunities to push the boundaries of science and shape the future of healthcare.

We are immensely proud of this team's achievement and look forward to seeing their visionary work come to life.

Congratulations 🎉 to Dean Dr Sofyan Maghaydah and the College of Health Sciences

Hamad Odhabi Professor Barry O'Mahony Montasir Qasymeh Abdulmajeed Almutary, Ph.D. **Najla AlNassar DHSc, MS, RD/LDN Tania Tahtouh, Ph.D., FHEA Bassam Mura, MBA Noor Al Masri Mariham Amir Khulud Abdallah College of Health Sciences - Abu Dhabi University**
