Exciting News: ADU is Ranked 70th in the THE Asia University Rankings 2025

Dear colleagues,

I am pleased to announce that **Abu Dhabi University** (ADU) has been ranked among the top 100 universities in the recently released THE Asia University Rankings 2025, achieving a position of 70 and climbing 19 places from last year.

This year, THE ranked 853 universities from 35 countries and territories, assessing their research, teaching, knowledge transfer, and international outlook. The methodology developed by Times Higher Education's in-house data team includes 18 performance indicators and is relied upon by students, academics, policymakers, and industry leaders worldwide.

It is truly gratifying to witness our university performing exceptionally well. This success can be attributed to the outstanding vision of our Chairman, Dr. Ali Bin Harmal Aldhaferi, Ph.D., and the dedicated efforts of our board members, colleagues, students, alumni, partners, and other stakeholders.

We are grateful to **Times Higher Education** (THE) for their leadership and transformational work across the globe, particularly in our region.
