Shaping the Future of Education

At **Abu Dhabi University**, we believe that the future of education lies at the intersection of innovation, technology, and collaboration.

It is with great pride that I announce the 2nd International Conference on Education: Advancing Teaching Practices through AI (ADU_ICEDU_2025), to be held from October 1–2, 2025, in Al Ain City, United Arab Emirates.

This conference will serve as a global platform where thought leaders, educators, and researchers will come together to explore how artificial intelligence is reshaping the way we teach, learn, and inspire future generations.

We invite you to share your research, ideas, and innovations, and join us in advancing educational excellence on a global scale.

Stay connected:

To submit your paper for the conference:

<https://lnkd.in/dfB4FRYE>

To attend, <https://lnkd.in/dFZrxBDM>

Conference website: <https://lnkd.in/dQzpvwB>

Together, let us reimagine education and empower the leaders of tomorrow.

This conference is chaired by my esteemed colleague Dr **Mohammad Fteiha**, our Al Ain Campus Director
