## 2024 UI GreenMetric World University Rankings

I am pleased to announce that in the 2024 UI GreenMetric World University Rankings, ADU has been ranked 344th out of 1,477 higher education institutions (HEIs) across 95 countries, and 2nd in the UAE. This marks an improvement of 15 places compared to last year, when we were ranked 359th out of 1,183 HEIs across 84 countries.

The UI GreenMetric World University Ranking is an initiative focused on green campuses and environmental sustainability, launched by Universitas Indonesia in 2010. The rankings are determined through 39 indicators across 6 criteria, which reflect universities' environmental commitments and initiatives. The criteria include Setting and Infrastructure (SI), Energy and Climate Change (EC), Waste (WS), Water (WR), Transportation (TR), and Education (ED).

I would like to extend my gratitude to the UI GreenMetric World University Rankings, particularly to Professor [Riri Fitri Sari](#) for their excellent work in this area.

This remarkable achievement is a testament to the visionary leadership of our Chairman, Dr. Ali Bin Harmal Aldhaheri, Ph.D., as well as the tireless efforts and dedication of our faculty, staff, students, alumni, and academic and industry partners.
