What Does ETHICS Mean for Me?

The letters in "ETHICS" mean the following for me:

E = Equity: Fairness and equality in treatment and decision-making.

T = Transparency: Openness and honesty in communication and actions.

H = Honesty: Commitment to truthfulness and integrity.

I = Integrity: Adherence to moral and ethical principles, maintaining consistency in actions and beliefs, especially when conducting research.

C = Compassion: Empathy and consideration for the well-being of others.

S = Social Responsibility: Acknowledgment of the impact of actions on society and the environment, and a commitment to act for the betterment of the community.

Together, these principles guide individuals and organizations in making ethical choices that respect and benefit others.

At ADU, ethical behavior is at the heart of everything we do. When ChatGPT was first released, within weeks we developed guidelines for our students and faculty in order to adhere to the highest ethical standards.

**#ETHICS #Equity #Transparency #Honesty #Integrity
#Compassion #SocialResponsibility #ADU #EthicalStandards**
