

Ghassan Aouad

Chancellor of Abu Dhabi University, Past President ...

6d

Last week, I renewed my Fellowship with **The Chartered Institute of Building (CIOB)**. From 2010 to 2014, I had the honor of serving the Institute as Vice President, Senior Vice President, and ultimately as the 111th President—becoming the first-ever President from the Middle East. Established in 1834, the CIOB is the world’s largest professional body for construction management, with a global membership of over 45,000 professionals. I am deeply passionate about our Institute and its remarkable achievements. ADU is working very closely with the CIOB.
