ADU in the Top 200 Universities in the World: Times Higher Education (THE) World University Rankings 2025

I am thrilled to announce that Abu Dhabi University has advanced 60 places in the prestigious **Times Higher Education (THE) World University Rankings 2025**, securing the 191st position globally (2,092 higher education institutions were ranked this year, the highest number ever ranked by the THE), placing it among the top 200 universities on the world stage. ADU has established itself as a leading university recognized for its academic excellence and commitment to research. In this year's rankings, ADU achieved remarkable success in the 'International Outlook' pillar, ranking 13th globally.

We extend our gratitude to the Ministry of Education, the Commission for Academic Accreditation (CAA), the Department of Education and Knowledge (ADEK), and the Knowledge and Human Development Authority (KHDA) for their leadership and unwavering support. Additionally, I would like to thank the THE for their hard work and commitment to excellence. Highlights of the results were presented yesterday in Manchester by **Phil Baty** of THE who has been instrumental in contributing to the transformation of the higher education sector globally, and in our region particularly.

This remarkable achievement is a testament to the visionary leadership of our Chairman, Dr. Ali Bin Harmal Aldhaheri, Ph.D. as well as the tireless efforts and dedication of our faculty, staff, students, alumni, and academic and industry partners.

Abu Dhabi University holds accreditation from the UAE Commission for Academic Accreditation (CAA) and the Western Association of Schools and Colleges (WASC) in the United States. Furthermore, our College of Business has the prestigious dual accreditation from EQUIS and AACSB, a distinction held by only 1% of business schools worldwide. At the program level, many of our engineering programs have received international accreditation from ABET, and the Bachelor of Architecture program has obtained Part 1 validation from the Royal Institute of British Architects (RIBA). Additionally, our Bachelor in Public Health program is accredited by APHEA (Agency for Public Health Education Accreditation).
