### EQUIS Re-accreditation

I am delighted to inform you that our College of Business at ADU has been successful in our EQUIS re-accreditation application once again placing us among the top 2% of business schools. This is a fantastic achievement and we are all very proud of this.

This achievement reflects the hard work and commitment of everyone within the College. I would like to extend my personal thanks to **Professor Barry O'Mahony**, Dean of the College of Business and Interim Provost, for his vision and leadership, as well as to the faculty and staff who worked tirelessly on the preparation and submission of the re-accreditation report. A special thank you to those who participated in the peer review interviews—they represented the College with professionalism and integrity, demonstrating our commitment to maintaining and building upon the high standards that have become synonymous with the College of Business. I would also like to thank the EQUIS review team for their professionalism and dedication.

EQUIS is a comprehensive quality review system for business and management schools. Its rigorous peer-review process signals the school's overall quality, viability and self-improvement commitment to students, employers and academic partners worldwide.

I am grateful for the visionary leadership of our Chairman, Dr. Ali Bin Harmal Aldhaheri, Ph.D. who is a driving force for excellence and high standards.
