

Ghassan Aouad

Chancellor of Abu Dhabi University, Past President ...

1w

What Does QUALITY Mean for Me?

Quality should be at the heart of everything we do. What does QUALITY mean for me within the context of higher education:

Q = Quest for Excellence: A relentless pursuit of the highest standards in teaching, learning, research, and support services.

U = Understanding Students' Needs: Actively listening and responding to the diverse requirements of our student body to enhance their experiences.

A = Assurance of Processes and Standards: Implementing reliable methods and benchmarks to ensure consistent quality in all educational offerings.

L = Leadership Commitment: Demonstrating a strong dedication from leadership to foster a culture of quality and integrity throughout the institution.

I = Improvement and Continuous Enhancement: Always seeking ways to refine practices and offerings to meet evolving educational standards and expectations.

T = Team Involvement: Encouraging collaboration among faculty, staff, and students to create a supportive and engaging learning environment.

Y = Yield Measurable Results: Focusing on outcomes that can be assessed and evaluated to quantify the effectiveness of our initiatives.

"Quality is never an accident. It is always the result of intelligent effort." -John Ruskin
