## The Art and Science of Leadership: A Presentation to School Principals

It was a pleasure for me to give a presentation to a group of esteemed school principals at our Al Ain campus on the topic of "The Art and Science of Leadership." During the session, we explored the essential qualities that define effective leadership and examined how the integration of creativity and analytical thinking can enhance decision-making processes in educational settings.

Engaging discussions followed, highlighting the unique challenges faced by school leaders and the innovative strategies they employ to inspire their teams and foster a positive learning environment. It was truly inspiring to connect with such dedicated professionals who are committed to shaping the future of education.

Many thanks to Dr **Mohammad Fteiha**, our Al Ain Campus Director, for his leadership and to my colleagues **Sameer Jaradat** and **Khulud Abdallah** for attending the presentation. Another presentation will be arranged soon for school principals at our Abu Dhabi Campus
