Celebrating Milestones: Graduation Ceremonies for Postgraduate Students

Yesterday was a momentous occasion as we held two graduation ceremonies for our accomplished postgraduate students from the College of Business and the College of Engineering. With an impressive turnout of 318 graduates, including 12 DBAs, the atmosphere was charged with excitement and pride.

It was truly inspiring to witness the joy radiating from the graduates, their families, and faculty members. Each graduate's journey has been marked by hard work, commitment, and perseverance, making it heartwarming to see them realize their dreams.

The celebration continues today with two more ceremonies for our undergraduates in the College of Health Sciences and the College of Law, as well as postgraduate students from the College of Law and the College of Arts, Education, and Social Sciences. These events not only showcase individual achievements but also reflect the collective strength and innovation of our institution.

In total, we will conduct eight graduation ceremonies this week, with over 1,000 graduates participating. This will take the total alumni of the University to over 33,000. I extend my gratitude to my esteemed colleagues: VC Dr. **Hamad Odhabi** Provost **Professor Barry O'Mahony**, Dean **Hamdi Mustafa Sheibani**, Mr. **Bassam Mura, MBA**, Ms. **Noor Al Masri**, Mr. **Zulfiqar Ali**, Mr. **Sameer Jaradat**, Ms. **Aseel Fathallah Agha** and others from various university divisions, as well as our dedicated student volunteers and MCs, for their contributions to the success of these ceremonies.

It is worth noting that ADU is now offering a DBA program, along with four PhDs in Education, Law, Intelligent Systems Engineering, and Engineering Management.
