Abu Dhabi University Receives naha Environmental Education Appreciation Award!

We are proud to announce that **Abu Dhabi University** (ADU) has been honored with the naha Environmental Education appreciation Award, recognizing our efforts in advancing sustainability through the Sustainable Campus Initiative (SCI) of **Environment Agency – Abu Dhabi (EAD)**.

This achievement reflects the dedication and collaborative spirit of the Sustainable Campus Initiative Unit of ADU and our passionate student leaders from the Green Club:

Raashida F., Fathima Hanina Iqbal, Fatima Jafer, Zenab Mohammad, and Fatima Mohammed Alameri, under the mentorship of Professor **Jolly Jacob** from the College of Engineering. Together, this dynamic team has driven impactful changes through Green Campus Audits and Sustainable Action Projects, fostering environmental awareness and promoting sustainable practices across our campuses.

Through the Sustainable Campus Initiative, the Environment Agency of Abu Dhabi provides support, guidance and methodology for University students across the Emirate to commit to Social Responsibility and Environmental Stewardship. Taking part in Sustainable Campus Initiatives on campuses can introduce students to the concept of responsibility for the environment and sustainable development. SCI's activities and the related research follow the Sustainable Development Goals (SDGs) of the United Nations.

Congratulations to everyone involved for this well-deserved recognition! Your dedication to environmental stewardship continues to inspire our community and beyond.

Let's continue leading by example and building a greener future.
