As Chair of the **QS Quacquarelli Symonds** Global Advisory Committee for the Middle East, I am happy to announce that the 30th edition of QS Insights Magazine (QSIM) is now available at:

There is also a supplement hosting 7 different pieces of analysis of the QS WUR 2026 at:

I strongly recommend to you an article by my esteemed QS colleague **Anton John Crace** titled "What We Talk About When We Talk About Rankings". I read this amazing article, it is a reflection on what the rankings mean to people, including those who are very critical of them, highly recommended. You can read the article at:
