## A Reflection on Celebrating Excellence: Abu Dhabi University Graduates 1,130 Future Leaders Across Its Premier Campuses

Last week, **Abu Dhabi University** (ADU) proudly celebrated the graduation of 1,130 outstanding students across its five distinguished colleges: the College of Engineering, the College of Business, the College of Law, the College of Health Sciences, and the College of Arts, Education, and Social Sciences. The ceremonies, held over eight memorable events, honored graduates from all three of ADU's campuses—Abu Dhabi, Al Ain, and Dubai—showcasing the university's commitment to academic excellence and accessibility.

What made this graduation even more special was the presence of ADU's leadership team family members among the graduates, including the Vice Chancellor's daughter, the Al Ain Campus Director's son, the Dean of Engineering's daughter, the Director of Community Relations' niece, the Head of Marketing's niece, and the Al Ain Campus Head of Admissions' son. Additionally, 15 faculty and staff celebrated their own academic achievements, further reinforcing their trust in the world-class education that ADU delivers.

A heartwarming testament to ADU's impact came from university friend Emad Jabr, who saw three of his children and his brother graduate last week. Emad himself is an ADU alumnus, and his son is soon to complete his studies—making it six family members who have chosen ADU for their education. This multi-generational trust underscores the exceptional academic environment, cutting-edge programs, and transformative student experience that Abu Dhabi University provides.

At ADU, we don't just educate—we inspire leaders, innovators, and changemakers. Our industry-aligned curriculum, renowned faculty, and state-of-the-art facilities ensure that every graduate is equipped to excel in a competitive global landscape.
