Iftar with Colleagues From the College of Health Sciences

Last night, I had the pleasure of sharing Iftar (the meal to break the fast) with my colleagues from the College of Health Sciences.. The evening was not only a delightful culinary experience but also an excellent opportunity for team building and fostering deeper connections among us.

The atmosphere was filled with warmth and camaraderie as we gathered to enjoy delicious food and meaningful conversations. I want to extend my heartfelt thanks to Dean **Sofyan Maghaydah**, and all the colleagues who were present. Your leadership and generosity made this event truly special and memorable. Such gatherings strengthen our bonds and enhance our collaboration, reminding us of the importance of unity and teamwork in our mission.
