

Professor Ghassan Aouad

Chancellor of Abu Dhabi University, Past President ...
4d · Edited

I'm speaking at the EduData Summit 2025!

The QS EduData Summit 2025 will be held on June 4-5, 2025, in collaboration with the **American University of the Middle East (AUM)**, at the Marina Bay Sands Expo and Convention Centre in Singapore, bringing together global education leaders, data scientists, and policymakers to explore the evolving role of data in education.

I am delighted to be moderating a discussion entitled "Presidents' Dialogue: Visions for Data-Driven Sustainability in Higher Education" on June 5, 2025.

This high-level dialogue will gather university presidents to explore strategic visions for deeply integrating sustainability principles across all aspects of their institutions. Presidents will share innovative approaches to leveraging data and fostering collaboration for a more sustainable university, addressing the challenges and opportunities of using data to drive institutional commitments and prepare future leaders for a sustainable world.

Speakers:

- Prof. **Pooi See Lee** - Vice President (International Engagement), Nanyang Technological University
- Prof. **Barry Winn** - Vice Chancellor, Taylor's University
- Kamran Gulamov - President, Central Asian University (CAU)
- Dr. **Abraham Mendoza Andrade** - Rector, Universidad Panamericana

This year's theme, "Connecting Edudata: Aligning Data Science, Skills, and Innovation," will explore how institutions can harness data effectively—not just to measure performance, but to create actionable insights that improve student outcomes and institutional success.

As a speaker for the Summit, I have the opportunity to offer my network 30% off tickets. Simply apply the code

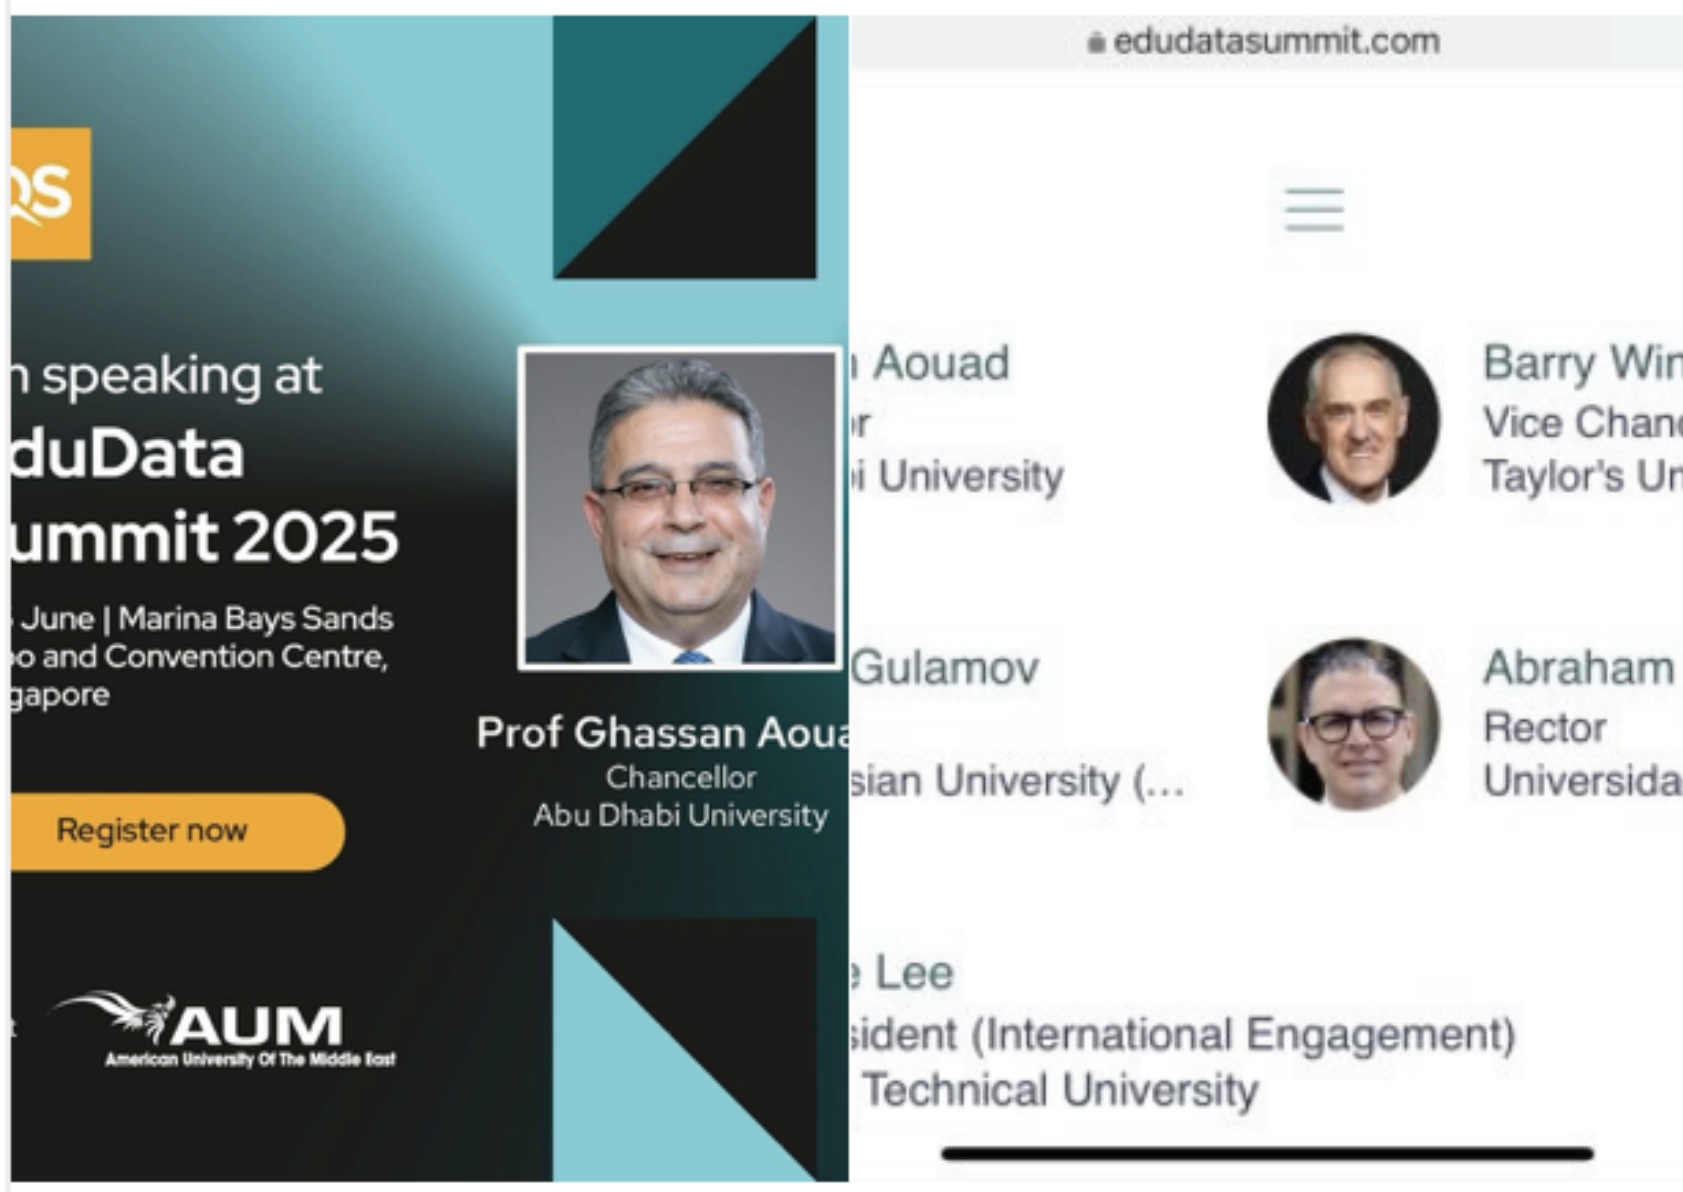

"QS_EDS2025_SPEAKER_NETWORK" at checkout to claim this offer. Register here:

- 🚀 Why attend?
- 🔍 Gain insights from leading experts on:
 - 💎 The intersection of skills and university performance
 - 💎 New methods for teaching and learning
 - 💎 Smart recruitment: Mapping the journey from education to employment
 - 💎 The future of universities in 2030
 - 💎 And much more!
- 🔧 Discover data-driven strategies that enhance student and institutional success.
- 👏 Network with top academics, policymakers, and industry leaders in education and data science.

Looking forward to seeing so many colleagues in Singapore. My colleague **Steve DCunha** will join me to man our booth.
