

Why ADU is the Right Choice

- 701-750** in the World
- 9** in the UAE*
- 1st** in the region for International Faculty & Students**
- 22,000+** Graduates
- 4** Locations (State-of-the-art facilities)

*2021 QS World Rankings
**Arab World Rankings 2021

- Internationally Accredited**
A degree from ADU will be respected around the world.
- Nationally Accredited**
Abu Dhabi University is licensed by the UAE's Ministry of Education. All our programs are accredited by the UAE's Commission for Academic Accreditation.
- Career-Oriented**
Our programs are industry driven, allowing our graduates to find exciting career paths after graduation.
- Co-curricular Activities**
Our programs are continuously updated while our curricula integrate vital future work skills.
- Vibrant and Cosmopolitan**
Our multicultural campuses boast a vibrant student community composed of over 80 different nationalities.
- Thriving Global Metropolis**
The city after which we are proudly named offers virtually unlimited professional, cultural, and social opportunities.

Testimonials

Sufana Amir Rafique
Current Student

I am a second year Nutrition and Dietetics student and am honored to be a part of the ADU community. I chose this major as it is an up-and-coming field. The need for awareness and education on the importance of nutrition, and the link between diet and healthy lifestyle is at the heart of this major. Moreover, with a Bachelor in Nutrition and Dietetics I will have a wide range of career options.

The classes are comprehensive and engaging – the credit for which goes to the health sciences faculty. The keen, friendly, and supportive faculty provide an optimum environment for learning and growing.

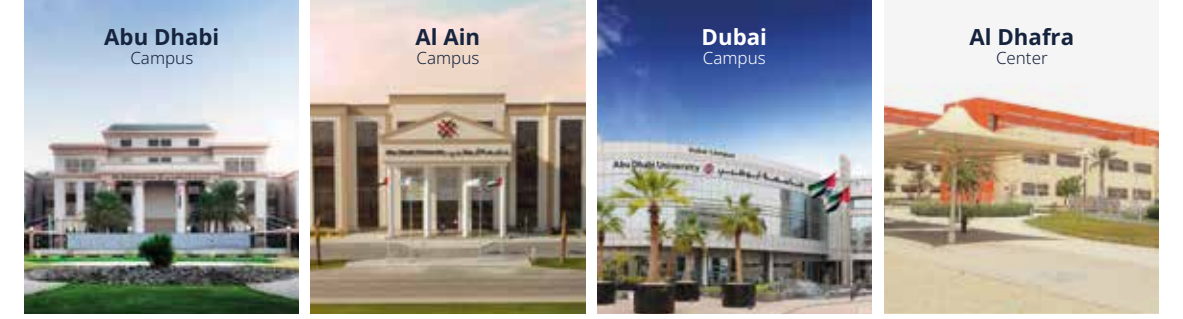

Dr. Aref Al Shehhi
Sheikh Khalifa Medical City, CEO

The pace of change has accelerated as we begin to experience the fourth industrial revolution, which is more digital, robotic, and enabling access to real-time information. With the massive advances in Internet, social media, technology, and automation we are becoming more aware of our world and the universe. My master's program at Abu Dhabi University made me realize that we must better understand the symptoms and causes of management failure and develop new approaches to managing sustainable development. The Master of Strategic Leadership is designed to prepare professionals to successfully lead in this turbulent yet exciting future that is upon us.

Four Locations One Great University

Our Campuses
We are a private, multi-campus university committed to providing an engaging learning environment, quality education and qualifications that are respected world-wide.

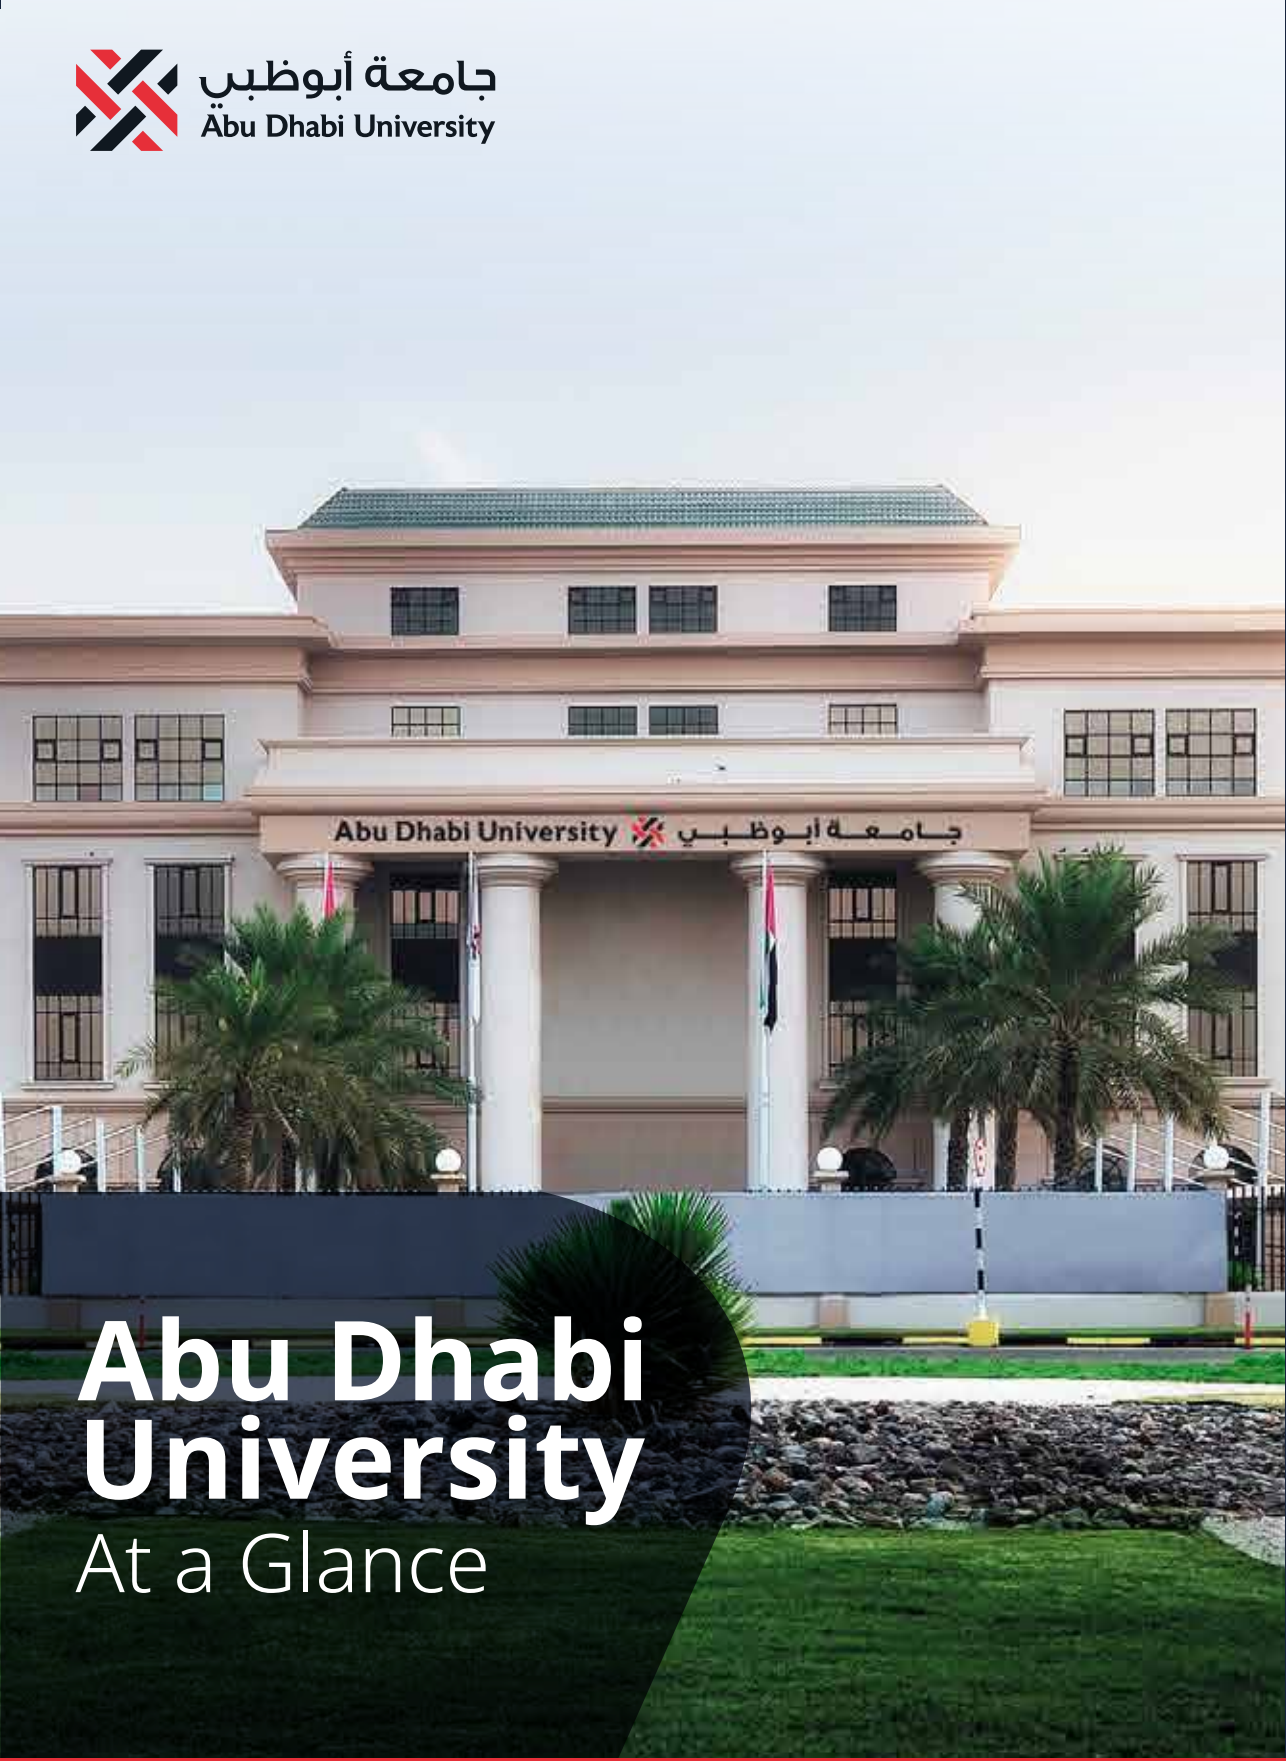

- Abu Dhabi Campus**
Abu Dhabi University's flagship campus is located in Khalifa City, Abu Dhabi – the capital of the United Arab Emirates. This purpose-built facility, opened in 2006, offers an inspirational place for study and extra-curricular activities alike.
- Al Ain Campus**
Spanning an area of 28,000 sqm, the new Al Ain campus can accommodate 2500 students currently, and its capacity will increase to 5000 students upon full completion of the total 54,000 sqm area. The purpose-built facility includes high-tech 36 classrooms and 36 state-of-the-art laboratories empowered by artificial intelligence and 137 offices for staff and faculty. The campus is also home to a wide variety of amenities.
- Al Dhafra Center**
Al Dhafra Center was opened in direct response to the strategic needs of the UAE relating to higher education in the Al Dhafra Region. Through this new facility, ADU demonstrates its commitment to providing quality education across the UAE.
- Dubai Campus**
ADU launched its state-of-the-art Dubai campus in 2017 which is located in the world-renowned Dubai Knowledge Park the world's only free zone dedicated to learning excellence.

Copy of valid English test score report (IELTS/TOEFL/EMSAT)
Copy of attested Bachelor & Master degree certificate and transcript
Application letter of 500-1000 words. 3 recommendation letters & CV with a managerial experience.

International Accreditation

ADU is internationally accredited by the Senior College and University Commission of the Western Association of Schools and Colleges (WSCUC).

WSCUC is the highest form of accreditation available in the USA, and accredits such prestigious institutions as Stanford University, California Institute of Technology, University of California System, and the California State University system.

ADU's College of Business holds international accreditations from the Association to Advance Collegiate Schools of Business (AACSB) and the prestigious EFMD Quality Improvement System (EQUIS). Only 1% of business schools worldwide have this double accreditation.

Abu Dhabi University's BSc in Civil Engineering, BSc in Chemical Engineering, BSc in Electrical Engineering, BSc in Computer Engineering, and BSc in Mechanical Engineering are accredited by the Engineering Accreditation Commission of ABET, and the BSc in Information Technology by the Computing Accreditation Commission of ABET, the global accreditor of college and university programs in applied and natural science, computing, engineering, and engineering technology.

ABET accreditation assures that programs meet a standard to produce graduates ready to enter critical technical fields that are leading the way in innovation and emerging technologies and anticipating the welfare and safety needs of the public. The Bachelor of Architecture program has earned the Royal Institute of British Architects RIBA validation, the highest accolade for architecture programs.

The College of Engineering has also recently received accreditation as an Authorized Training Center (ATC) from the International Air Transport Association (IATA). This applies in particular to the Department of Aviation and selected courses.

The College of Health Sciences has earned accreditation from the Agency for Public Health Education Accreditation (APHEA).

ADU is one of the youngest universities to receive international academic accreditation from the Western Association of Schools and Colleges: Senior College and University Commission - WSCUC. This gives your degree from ADU the competitive global edge and international recognition you need to stand out among your peers in the labor market after graduation.

As a student, why is this important?

- Your international employability prospects have increased significantly as you are now a future graduate of a WSCUC accredited university.
- The WSCUC accreditation is not specific to any one college or degree; it is institutional. This means that current and future ADU students can proudly say that they are WSCUC accredited.
- Your ADU degree is now internationally recognized and transferrable.
