Author's Name* (11 pt, Times New Roman), *Institute (Italic)*, E-mail: name@university.ac.ae

1st Co-Author's Name, *Institute*, 2nd Co-Author's Name, *Institute*
Address of Institute, City, Country

Any other Authors/Investigators' Names & *Affiliation*

Abstract

Abstract title is bold font size 11 pt, Times New Roman. The abstract text should have a single line spacing in font size 10 pt, Times New Roman. The abstract text should not exceed 200 words.

1. INTRODUCTION

Following the format presented in this template will help The Office of Research and Sponsored Programs at Abu Dhabi University ensure that all contributions in the final publication look professional and consistent. Please take a minute or two to read through the following instructions before beginning your paper. Save another version of the electronic template file, which you can edit, and use to produce your paper.

Submitted papers should not exceed a maximum of 10 pages inclusive; figures, tables, and references. All papers should be prepared on A4 size paper with 1-inch margin on all sides except a 1.25-inch margin on the inner side, with the margins set to "Mirror Margins" for multiple pages from the page setup menu.

Stick to the font type and size as well as line spacing that appears in the title and authors sections. All paragraphs should have single line spacing in font size 10 pt, Times New Roman. Leave one-line spacing between paragraphs.

2. HEADINGS

Headings should be in Capitalized BOLD Times New Roman font, size 11, numbered using Arabic numeration. 6 pt spacing must be left after the HEADING.

2.1 Sub-Heading

First level Sub-Headings should be in BOLD Times New Roman font, size 10, and must also be numbered in sequence. 6 pt spacing must be left before the Sub-Heading. It is recommended that only one level of Sub-Heading be used. Leave one line between the last line in the last paragraph in one section and the title of the following section.

3. FIGURES & TABLES

Insert figures and tables directly after the paragraph where they are first referred to. Leave single line spacing separating text from figures. Insert figure captions below the figure using Times New Roman font, size 10 as in the example below. Leave a single line spacing to separate a figure caption from the text in the following paragraph. Follow the same instructions when including tables, except for table captions that should be inserted above the table.

Fig. 1: Figure captions should be numbered in sequence (eg: Fig. 1, Fig. 2, Fig. 3, etc.).

4. PAGE HEADER & NUMBERING

The header should indicate the university that the principal author belongs to. The header can be edited by double clicking on “*University of*” that appears at the top of the page. Please note that this template is designed to have different header and footer arrangements for odd and even pages. Thus, the header should be edited in the first and second pages, following pages would then be edited automatically.

5. REFERENCES CITATION & LISTING

Include references at the end of the manuscript in the same format that appears in the **REFERENCES** section. List your references according to the citation order that appears in the abstract, using squared brackets to indicate reference citation such as [1], [2], [3].

CONCLUSION

Notice that the HEADERS of the conclusion, acknowledgment, and references sections are not numbered. Please proof read your work before submitting as this gives another chance to correct any spelling and typing mistakes.

Once completed according to the format provided herewith, you may submit your final research project on the URC website by registering for the competition.

For any further information or inquiries, please contact urc@adu.ac.ae

ACKNOWLEDGEMENT

Please acknowledge the support and contribution of individuals or agencies that participated in your project.
